## DEMOCRATS WIELD WHIP IN TAX REDUCTION

### REPUBLICANS ARE SPLIT ON MELLON TAXATION PLAN

DEMOCRATIC LEADERS WILL NOT BUDGE FROM SURTAX STAND TAKEN

BELIEVE THE PROGRESSIVES WILL RALLY TO THEIR SUPPORT

#### Congress Today By United Press

Senate: Considers Caraway motion on Teapot Dome scandal. House: Considers interior department appropriations bill. Ways and means committee considers tax bill. Immigration committee considers Jensen immigration bill. Agricultural committee considers McNary-Haugen farm relief bill.

Washington, Jan. 24.—Democrats wielded the whip in the drive for tax reduction today.

With republicans split on the Mellon plan and desperately seeking a compromise, democratic hopes are high for forcing acceptance of the plan of Representative Garner, Texas, democrat.

Having won a strategic victory, democratic leaders say they will not budge from the 44 per cent surtax minimum in the democratic plan. They believe the progressives will rally to their support rather than support the Mellon plan which is 25 per cent surtax maximum.

Despite the determined stand of the democrats, republican leaders indicated that negotiations for a compromise were still in progress. They are confident the democrats will accept a lower rate rather than be placed in a position of blocking tax reduction.

The democrats are mystified by the compromise offers in view of the flat announcement from the White House that President Coolidge will veto any tax bill that alters the fundamental principles of the Mellon plan.

**Compromise Plan Offered**  
Republicans explain that they are proceeding with compromise plans with the conviction that the president will not veto the bill.

Many democrats regard the White House statements as an effort to force a compromise on the lowest possible surtax rates they are willing to concede.

Bitter criticism of Representative Longworth, Ohio republican leader and Chairman Green of the ways and means committee have broken out among republicans because of their compromising efforts.

These republicans, notably Representative Mills, New York, would rather let the democrats "take the political consequences" for defeating the bill.

Having adopted the Mills program to cut direct taxes \$200,000,000 and the indirect taxes \$120,000,000, the ways and means committee today was expected to be slashed from the taxes on the so-called nuisance tax.

Votes probably will be taken on the automobile, stamp and candy taxes.

**CUT TAXATION OF ALL PEOPLE**  
Washington, Jan. 24.—Raise the Mellon bill and cut the taxation of all the people.

Adopt the Garner plan and reduce the taxes of the present 3,172,000 income taxpayers.

This was the argument made today by Representative Mills, New York, in a speech in the house giving a careful analysis of the republican and democratic plans before congress.

Mills, who is a member of the house ways and means committee, declared the people were over-taxed and tax reduction must be considered from the standpoint of all the people of which the taxpayers constitute less than three per cent.

The first tilt over the Mellon pro-

#### SINCLAIR MAKES STATEMENT AT PARIS

Paris, Jan. 24.—Any charges before the senate Teapot Dome committee that Harry F. Sinclair paid former Secretary of the Interior Fall's ranch foreman \$68,000 "is false testimony" the oil millionaire said today.

As more complete details of the Roosevelt-Wahlberg testimony became available to Sinclair after his arrival here he became somewhat more emphatic in his answers.

Questioned particularly as to Archie Roosevelt's statement quoting G. D. Wahlberg as saying that the latter had the cancelled checks for \$68,000 paid by Sinclair to Fall's ranch foreman, Sinclair said:

"I do not know anything about it. If Roosevelt testified in such a manner it was dishonest testimony. I don't mean that Roosevelt testified dishonestly, you understand," he added, and then with a gesture of dismissal:

"The secret of the whole affair is that the democratic national committee wants to get Fall."

#### E. L. DOHENY IN OIL LEASE TESTIMONY

Washington, Jan. 24.—E. L. Doheny, lessee of two naval oil reserves in California arrived in Washington today from New Orleans to appear as a "volunteer witness" before the senate committee investigating the Teapot Dome and other naval oil reserve leases.

Doheny was accompanied by Gavin McNab, his counsel.

Doheny came from New Orleans, having left there in advance of former Secretary of the Interior Fall who has been subpoenaed for the committee.

Fall is due here some time today. Fall made the lease to Doheny as well as that of Teapot Dome to the Sinclair interests.

On learning of Doheny's arrival, Senator Lenroot, Wisconsin, called a meeting of the senate public lands committee for 2 p. m. to hear Doheny's testimony.

Doheny refused to discuss the statement he will make to the committee. He said he knew nothing about Sinclair and that the leases under which he holds California's naval reserves are perfectly legal.

Fall, it was learned later, probably will not arrive in Washington before late today or early tomorrow.

#### TRACING MOVEMENTS OF FALL AND DOHENY

New Orleans, Jan. 24.—E. L. Doheny, president of the Mexican petroleum company, Mrs. Doheny and Gavin McNab, the oil man's attorney, spent two days in New Orleans. Contrary to reports, Doheny and former Secretary of the Interior Albert B. Fall, both mentioned in connection with naval oil leases, failed to meet during their stay here. Fall was registered at a local hotel several days. He departed Wednesday morning following the departure of Doheny.

#### DOHENY TESTIFIES AT SENATE COMMITTEE

Washington, Jan. 24.—Edward L. Doheny of Los Angeles, lessee of two naval oil reserves, told the senate public lands committee that he loaned \$100,000 to former Secretary of the Interior Fall.

Doheny said the loan was made "personally" on November 30, 1921. Doheny said it was purely a "friendly transaction and had noth-

### LENIN'S BODY IN SIMPLE, HUMBLE COFFIN IN MOSCOW

REMAINS LIE IN GREAT BANQUET HALL, RENDEZVOUS OF RUSSIA'S GREAT

SOLDIERS OF RED ARMY WITH FIXED BAYONETS GUARD DEAD PREMIER

(By United Press)

Moscow, Jan. 24.—In the great banquet hall of what was once the noble's club rendezvous of Russia's great, the body of Lenin reposed in a simple coffin upon a humble couch today while his comrades of the revolution paid him last honors as they passed slowly by in single file.

The face of the dead premier was calm and waxen and in the play of brilliant lights it seemed to wear an expectant look.

Soldiers of the red army with fixed bayonets stood at rigid attention or kept order with hushed voices.

The line of mourners was endless. Scores of thousands stood in the bitter cold and snow. It was 20 degrees below zero during the night. The line extended six deep for many blocks and grew constantly as thousands more joined in the hope of a last look at Lenin.

Inside the hall the mourners paid homage, some weeping.

Commissars took turns in the death watch; that of Foreign Minister Tchitcherin came at 3:45 a. m. today. Word from the Caucasus was to the effect that Leon Trotsky probably will be unable to come to Moscow for the funeral Saturday.

The war minister is ill and has a high temperature.

ing to do with the two leases he obtained from Fall."

Doheny made his statement in written form.

He said he had not told of the loan previously because he had not been asked about it by the committee.

"Mr. Fall has tried to keep my name out of it," Doheny said. "The loan had nothing to do with the lease I obtained in competitive bidding from the government."

Doheny leased the oil reserves No. 1 and No. 2 in California some time before Harry F. Sinclair leased Teapot Dome.

Doheny, under a white mustache which hung down over his lips as he spoke, peered through his gold rimmed spectacles directly at Senator Walsh across the table.

The hearing room was jammed to the door ten minutes before the hearing started and capital police stationed outside turned scores away.

Doheny was accompanied by his counsel, Gavin McNab.

Assistant Attorney General Holland who was sent up by the direction of President Coolidge to listen to testimony was present.

Doheny said his bid for the California reserves was "the lowest received by the government."

Two proposals were submitted by him, Doheny said. He read a letter sent to him by Fall notifying him that his bid had been accepted.

Doheny's first contract covering reserves one and two was signed July 12, 1921, several months before he made the loan to Fall.

Doheny's startling announcement was received in silence by the committee. He continued reading his statement in a high pitched firm voice.

The bid was specifically for royalties but included provisions for leasing naval reserves Nos. one and two in California, which were leased.

"This shows there could not have been collusion between my company and any one connected with the lease," Doheny said.

Doheny read rapidly and members of the committee and others who packed the room strained to catch his words.

### MRS. HARDING JOINS STAFF OF MARION "STAR," MARION, O.

Marion, Ohio, Jan. 24.—Mrs. Warren G. Harding, widow of the late President Harding, is to become an associate editor of the Marion Star and plans to write over her own signature for the newspaper which her husband conducted for thirty-five years.

This was revealed here in a letter received from Mrs. Harding at Washington, accepting her election as director of the Harding Publishing company, publishers of the Star.

The following telegram was received by the Brainerd Dispatch today from Congressman Harold Knutson:

"One hundred dollar Chipewa per capita bill passed senate today. Will rush to president."

### LETTERS READ IN DIVORCE CASE

MISSIVES EXCHANGED BETWEEN PASTOR AND MAN'S WIFE

(By United Press)

Chicago, Jan. 24.—Letters exchanged between Mrs. Charlotte Leland and Rev. Carl D. Case, pastor of the fashionable First Baptist church of Oak Park, named in a divorce suit by Mrs. Leland's husband, were read in open court today.

These letters, Albert R. Leland testified, were carried by him to the pastor in the belief that they had to do with church affairs.

"I am relieved to learn that I haven't hurt you," one of Mrs. Leland's letters said in part.

"I made a big mistake and I see it all now. I am turning back to start again."

The letters were read by Leland who took the stand when the case was reopened today.

All the persons in the case and the wife of the pastor were in court.

Leland charged that Case "kissed, petted and fondled" Mrs. Leland.

Leland was the first witness today. During his testimony Rev. Case was asked to sit in an ante-room. Leland was questioned by F. E. Brown, attorney for Rev. Case.

### BROKEN ROMANCE, 2 FACE THE LAW

MILES PACKARD AND MADELINE LA VERE TO BE BROUGHT BACK TO ST. CLOUD

(By United Press)

Minneapolis, Jan. 24.—W. G. Guterman, Minneapolis and Deputy Sheriff Frank Battenberg, St. Cloud, are en route to Denver to return Miles Packard and Madeline La Vere, the former arrested there on charges of bigamy.

Guterman, father of the girl whose stage name is La Vere, hopes to bring her back home to Minneapolis.

The girl married Packard at Le Mars a short time ago. Packard's first wife at St. Cloud preferred the charges of bigamy.

### FLAMES THREATEN NEBRASKA TOWN WITH EXTINCTION

Greenwood, Neb., Jan. 24.—Damage estimated at \$40,000 was done by fire of unknown origin that was brought under control shortly after 9 a. m. today, fire officials told the United Press.

The fire that threatened to destroy the entire village of 350 population was headed off after chemical apparatus from Lincoln and all residents had worked for several hours.

### CONFERENCE ON FARM CONDITIONS OF N. W. CALLED

PRESIDENT COOLIDGE'S SUGGESTION TO CONGRESS TAKES CONCRETE FORM

WILL MEET IN WASHINGTON IN THE NEXT TWO WEEKS. LEARNED TODAY

(By United Press)

Washington, Jan. 24.—A conference on farm conditions of the northwest proposed by President Coolidge in his message to congress yesterday, will be summoned to meet in Washington within the next two weeks, it was learned today.

The president conferred with Secretaries Hoover and Wallace and with Clyde Reed, legislative representative of the farm bureau federation, regarding the conference.

The meeting will include representatives of business, banking and agriculture from the farming states in the middle west.

Governors of the states concerned, members of the federal reserve banks and other government officials will attend.

### WAR FINANCE CORPORATION BUSY

Sioux Falls, S. D., Jan. 24.—The war finance corporation will establish immediately a branch at Sioux Falls, according to Eugene Meyer, managing director of the corporation.

Meyer made the announcement after a conference with South Dakota bankers here last night.

The purpose of the branch is to bring the resources and assistance of the war finance corporation in closer contact for banks, he said.

The branch agency will be in charge of Sioux Falls bankers. The action constitutes the first step by the federal government to help agriculture in the northwest to its feet.

### RELIEF FOR SOUTH DAKOTA BANKERS

Minneapolis, Jan. 24.—Relief for South Dakota bankers will be offered as soon as the proper financial machinery can be put into operation, Eugene Meyer Jr., director of the war finance corporation said today on his arrival here.

Meyer came from Sioux Falls where he conferred with South Dakota bankers. He at once went into conference with R. A. Young, governor to the ninth federal reserve bank and Twin City bankers.

He declined to discuss the financial problems of Minnesota and the Dakotas, saying that any public statements must come from Washington.

What definite proposals have been made had not been disclosed. Governor Young had nothing to say.

### FARMER BECOMING A VIRTUAL TENANT

Duluth, Jan. 24.—Because of excessive taxation on farm lands the farmer is becoming a virtual tenant of the state, Dr. Richard T. Ely, director of the institute for research in land economics, declared here today before the Tri-State Development congress.

This impending situation demands a revision of our taxes, Dr. Ely, the only speaker on the farm taxation situation at the congress, called by the governors of Minnesota, Michigan and Wisconsin, said.

Dr. Ely said this vast increase in public expenditure was justified, however, because the projects for which the money is being expended are needed for the development of the state and nation.

"This great and ever increasing load of expenditures requires an entire overhauling of our ideas of taxation," he said.

"The burden is crushing unless everybody puts their shoulder under

### DRY AGENTS MAKE \$100,000 HAUL IN NEW ORLEANS, LA.

New Orleans, Jan. 24.—Invading New Orleans' fashionable residential district bordering Audubon Park, federal prohibition enforcement agents raided the home of Peter Fabacher, former well known restaurant proprietor and seized liquors valued at retail bootleggers' prices by federal authorities at \$100,000.

### FORD COMPANY AND OTHERS ARE DEFENDANTS IN SUIT

(By United Press)

Cleveland, Ohio, Jan. 24.—The Ford Motor company and the Detroit Toledo and Ironton railway owned by Henry Ford were made defendants in a \$200,000 damage suit filed in Wayne County, Michigan by the Fred R. Jones company of Cleveland.

The petition charges trickery and fraud in the construction of the railroad for the Ford interests.

The road connects the Ford plant and River Rouge Michigan with the Ironton railroad at Flat Rock. The line is double tracked and twelve and a half miles long.

The Jones company charged that after construction was started a written contract was presented which called for certain specifications not contained in the original contract.

### BODIES OF TWO RECOVERED FROM TACOMA WRECK

(By United Press)

Washington, Jan. 24.—The bodies of Captain H. G. Sparrow and Solomon Slvin, radioman, killed aboard the Tacoma wrecked off Vera Cruz, have been reported recovered, the navy department was advised today.

The bodies of the other radio men, H. R. Lussler and H. H. Herrick, have not been recovered.

The dispatch stated that the four lost their lives as the result of a gallant attempt to maintain radio communication while the Tacoma was beached by heavy seas. Six others injured were reported not serious.

Among them were Lieutenant R. W. Hungerford, Hathboro, Pa., pay clerk; J. W. Nichols, Osceola, Mo., chief radio man; R. V. Cooper, Cleveland, Ohio, gunner's mate, and H. Bomaph, Philadelphia.

### FIVE LAND OFFICES IN NORTHWEST SAVED

Washington, Jan. 24.—If more federal land offices are to be abolished the job must be done through executive order. The house refused to approve the recommendation of the appropriations committee to abolish 21 land offices and offices of register and receiver, the final vote being 139 to 169 to strike out the committee amendment.

It was necessary to add \$83,000 to the interior department appropriation to pay the expenses of these offices.

Five northwest land offices were saved by the house's action. They are the ones at Cass Lake, Minn.; Great Falls and Kalispell, Mont.; Dickinson, N. D., and Wausau, Wis.

Representative Harold Knutson of the sixth district made a speech in favor of retaining the 21 land offices.

the load and helps to carry it. The tendency in recent years, however, has been to concentrate the burden on a portion of the community through direct taxation and income taxes."

Dean H. L. Russell of the Wisconsin college of agriculture, presided at a meeting of the committee today and took an active part in the discussions.

### QUESTION OF AN INCREASE CAUSES DIVISION TODAY

EVEN SCALES COMMITTEE OF UNITED MINE WORKERS DIVIDED ON QUESTION

CONVENTION FAVORS NATIONALIZATION OF RAILROADS AND COAL MINING

(By United Press)

Indianapolis, Ind., Jan. 24.—Proposals for the new working contract for bituminous miners were under consideration today by the scales committee of the United Mine Workers' convention.

The committee last night went over resolutions from local unions dealing with wage and working conditions.

Some of the resolutions asked a renewal of the wage contract on the present basis while others demanded increases ranging from ten to 25 per cent.

The committee itself is divided into two groups on the question of an increase.

It was said one group wants to go to the Jacksonville wage conference with demands for an increase of probably ten per cent to gain concessions from the operators on other points. Other members of the committee, it is said, believe the miners will strengthen their hand by the cutting out of the "bargain points" and ask for a renewal of the present scale.

The convention extended its policy for nationalization of a basic industry by adopting a resolution seeking for eventual nationalization of railroads and coal mining.

The miners had endorsed government authorization of the mines at previous conventions, but it was the first time the railroads were included in the proposal.

Samuel Lewis, international president, administered a second defeat to the radicals when he secured approval of his action in removing charters of Nova Scotia given last year.

### Petitions for Johnson Circulated in N. D.

Fargo, N. D., Jan. 24.—Petitions for the nomination of Senator Hiram Johnson of California as a candidate for the endorsement of the republicans of North Dakota for presidential nomination in the Cleveland convention were placed in circulation in this state today, according to an official announcement given out from campaign headquarters here. A similar petition bearing the name of Calvin Coolidge was placed in circulation several days ago.

### Rector Defies Bishop's Order Banning Dancing

New York, Jan. 24.—Bishop William T. Manning of the Protestant Episcopal diocese of New York, today received a letter from Rev. Dr. William Norman Guthrie, rector of St. Marks-in-the-Bowery, refusing compliance with or rejection of the bishop's demand that symbolic dancing in St. Mark's be discontinued.

### Reed and Coulter to Address Farm Bureau

Fargo, N. D., Jan. 24.—J. F. Reed, president of the Minnesota Farm Bureau federation will be the principal speaker at the annual meeting of the North Dakota Farm Bureau federation here Thursday and Friday. C. M. Morgan, organizer of the North Dakota Potato exchange and Mr. Reed will speak Friday morning. President John Lee Coulter of the agricultural college and father of the Coulter plan, will give an address this afternoon.

#### RELIEF FOR SOUTH DAKOTA BANKERS

Minneapolis, Jan. 24.—Relief for South Dakota bankers will be offered as soon as the proper financial machinery can be put into operation, Eugene Meyer Jr., director of the war finance corporation said today on his arrival here.

Meyer came from Sioux Falls where he conferred with South Dakota bankers. He at once went into conference with R. A. Young, governor to the ninth federal reserve bank and Twin City bankers.

He declined to discuss the financial problems of Minnesota and the Dakotas, saying that any public statements must come from Washington.

What definite proposals have been made had not been disclosed. Governor Young had nothing to say.

#### FARMER BECOMING A VIRTUAL TENANT

Duluth, Jan. 24.—Because of excessive taxation on farm lands the farmer is becoming a virtual tenant of the state, Dr. Richard T. Ely, director of the institute for research in land economics, declared here today before the Tri-State Development congress.

This impending situation demands a revision of our taxes, Dr. Ely, the only speaker on the farm taxation situation at the congress, called by the governors of Minnesota, Michigan and Wisconsin, said.

Dr. Ely said this vast increase in public expenditure was justified, however, because the projects for which the money is being expended are needed for the development of the state and nation.

"This great and ever increasing load of expenditures requires an entire overhauling of our ideas of taxation," he said.

"The burden is crushing unless everybody puts their shoulder under

### DRY AGENTS MAKE \$100,000 HAUL IN NEW ORLEANS, LA.

New Orleans, Jan. 24.—Invading New Orleans' fashionable residential district bordering Audubon Park, federal prohibition enforcement agents raided the home of Peter Fabacher, former well known restaurant proprietor and seized liquors valued at retail bootleggers' prices by federal authorities at \$100,000.

### FORD COMPANY AND OTHERS ARE DEFENDANTS IN SUIT

(By United Press)  
Cleveland, Ohio, Jan. 24.—The Ford Motor company and the Detroit Toledo and Ironton railway owned by Henry Ford were made defendants in a \$200,000 damage suit filed in Wayne County, Michigan by the Fred R. Jones company of Cleveland.

The petition charges trickery and fraud in the construction of the railroad for the Ford interests.

The road connects the Ford plant and River Rouge Michigan with the Ironton railroad at Flat Rock. The line is double tracked and twelve and a half miles long.

The Jones company charged that after construction was started a written contract was presented which called for certain specifications not contained in the original contract.

### BODIES OF TWO RECOVERED FROM TACOMA WRECK

(By United Press)  
Washington, Jan. 24.—The bodies of Captain H. G. Sparrow and Solomon Sivin, radioman, killed aboard the Tacoma wrecked off Vera Cruz, have been reported recovered, the navy department was advised today.

The bodies of the other radio men, H. R. Lussier and H. H. Herrick, have not been recovered.

The dispatch stated that the four lost their lives as the result of a gallant attempt to maintain radio communication while the Tacoma was beached by heavy seas. Six others injured were reported not serious.

Among them were Lieutenant R. W. Hungerford, Harbor, Pa., pay clerk; J. W. Nichols, Osceola, Mo., chief radio man; R. V. Cooper, Cleveland, Ohio, gunner's mate, and H. Bomaph, Philadelphia.

#### FIVE LAND OFFICES IN NORTHWEST SAVED

Washington, Jan. 24.—If more federal land offices are to be abolished the job must be done through executive order. The house refused to approve the recommendation of the appropriations committee to abolish 21 land offices and offices of register and receiver, the final vote being 139 to 109 to strike out the committee amendment.

It was necessary to add \$83,000 to the interior department appropriation to pay the expenses of these offices.

Five northwest land offices were saved by the house's action. They are the ones at Cass Lake, Minn.; Great Falls and Kalispell, Mont.; Dickinson, N. D., and Wausau, Wis.

Representative Harold Knutson of the sixth district made a speech in favor of retaining the 21 land offices.

#### 12 HORSES BURNED IN MYSTERIOUS FIRE

(By United Press)  
St. Paul, Jan. 24.—Twelve horses were burned to death in a mysterious fire which destroyed a large barn here early today.

The load and helps to carry it. The tendency in recent years, however, has been to concentrate the burden on a portion of the community through direct taxation and income taxes."

Dean H. L. Russell of the Wisconsin college of agriculture, presided at a meeting of the committee today and took an active part in the discussions.

### QUESTION OF AN INCREASE CAUSES DIVISION TODAY

EVEN SCALES COMMITTEE OF UNITED MINE WORKERS DIVIDED ON QUESTION

#### CONVENTION FAVORS NATIONALIZATION OF RAILROADS AND COAL MINING

(By United Press)  
Indianapolis, Ind., Jan. 24.—Proposals for the new working contract for bituminous miners were under consideration today by the scales committee of the United Mine Workers' convention.

The committee last night went over resolutions from local unions dealing with wage and working conditions.

Some of the resolutions asked a renewal of the wage contract on the present basis while others demanded increases ranging from ten to 25 per cent.

The committee itself is divided into two groups on the question of an increase.

It was said one group wants to go to the Jacksonville wage conference with demands for an increase of probably ten per cent to gain concessions from the operators on other points. Other members of the committee, it is said, believe the miners will strengthen their hand by the cutting out of the "bargain points" and ask for a renewal of the present scale.

The convention extended its policy for nationalization of a basic industry by adopting a resolution seeking for eventual nationalization of railroads and coal mining.

The miners had endorsed government authorization of the mines at previous conventions, but it was the first time the railroads were included in the proposal.

Samuel Lewis, international president, administered a second defeat to the radicals when he secured approval of his action in removing charters of Nova Scotia given last year.

#### Petitions for Johnson Circulated in N. D.

Fargo, N. D., Jan. 24.—Petitions for the nomination of Senator Hiram Johnson of California as a candidate for the endorsement of the republicans of North Dakota for presidential nomination in the Cleveland convention were placed in circulation in this state today, according to an official announcement given out from campaign headquarters here. A similar petition bearing the name of Calvin Coolidge was placed in circulation several days ago.

#### Rector Defies Bishop's Order Banning Dancing

New York, Jan. 24.—Bishop William T. Manning of the Protestant Episcopal diocese of New York, today received a letter from Rev. Dr. William Norman Guthrie, rector of St. Marks-in-the-Bowery, refusing compliance with or rejection of the bishop's demand that symbolic dancing in St. Mark's be discontinued.

#### Reed and Coulter to Address Farm Bureau

Fargo, N. D., Jan. 24.—J. F. Reed, president of the Minnesota Farm Bureau federation will be the principal speaker at the annual meeting of the North Dakota Farm Bureau federation here Thursday and Friday. C. M. Morgan, organizer of the North Dakota Potato exchange and Mr. Reed will speak Friday morning. President John Lee Coulter of the agricultural college and father of the Coulter plan, will give an address this afternoon.

### Investigate So-Called

#### New Breeds of Poultry

(Prepared by the United States Department of Agriculture.)

During the past few months the United States Department of Agriculture has received many requests from all parts of the country for information concerning two so-called new "breeds" of poultry, the "Turken" and the "Kiwi". The department has been aware of advertisements concerning these new and novel "breeds", for which some rather remarkable claims have been made. The advertisements and literature describing the origin and qualities of these "breeds" seem to have aroused much interest on the part of the public, since the department has recently received several urgent requests for an explanation regarding the reliability of the claims made.

The statements in the advertisements and literature claim that the "Turken" was originally produced by crossing a male turkey with a female chicken, and that the "Kiwi" was produced by crossing a male ostrich with a female chicken.

Successful crosses have been made between the pheasant and the chicken, and in practically every case the progeny has been of the male sex and sterile. Also, successful crosses have been made between the guinea and the chicken and here, again, the sex of the progeny has almost invariably been male, and the hybrids have been sterile. Both of these crosses have been made with great difficulty and, so far as known, no cross giving any progeny has ever been reported between the turkey and the chicken. Furthermore, it is highly improbable that the progeny, if any have ever been secured, would breed at all, and certainly not readily. In such wide or violent crosses the progeny is always sterile, and the claim that the "Turken", which is reported to be the hybrid progeny of a cross between the turkey and the chicken, is in all probability not founded on fact.

One other point must be made concerning the so-called "Turken", says the department. The illustrations accompanying the advertisements and literature are in all probability photographs of the Transylvania naked-neck chickens. According to the best information obtainable this odd-looking breed originated in West India and the characteristic naked-neck has bred true for many years. It is a distinct character of the breed. The department believes that the so-called "Turken" is nothing else than the Transylvania naked-neck chicken, which apparently possesses no qualities superior to the more important standard breeds and varieties and has not been shown to be particularly well adapted to conditions in many parts of our country.

As far as the reported cross giving rise to the "Kiwi" is concerned, there is much less evidence in support of such a cross than in the case of the "Turken". This is too violent a cross to produce any results whatever.

The burden of proof that such crosses as those giving rise to the "Turken" and the "Kiwi" must remain with the sponsors of such novel projects. The interests of the public should be safeguarded.

### Much Depends Upon Care When Pullets Will Lay

At what age should pullets begin laying? It is commonly acknowledged that Leghorn pullets on the average will begin laying at the age of 5 to 5 1/2 months. Wyandottes and Rhode Island Reds usually start at 6 to 6 1/2 months and Plymouth Rocks around 7 months.

Of course there are exceptions where better records are made. Much depends upon the care and attention given during the months of growth and development. If properly fed and housed, they should be in a laying condition at the age mentioned above.

### Timely Poultry Hints

Fall-hatched chickens are in good demand from January 1 to April 1.

Count on a shrinkage of a half-pound for each bird shipped.

Ship adult fowls in a box 20 by 18 by 12 inches, to hold 24 birds.

All animal heat must be out of the carcass before packing for shipment.

Young fowls in the same package with old stock, will command the prevailing prices for the latter.

The regulation box, for a dozen broilers measures 17 by 16 by 4 inches, inside measurement. It is made of half-inch lumber.

For shipping one dozen roasting fowls, the box should measure 20 by 19 by 6 inches, of half-inch stuff.—Farm Journal.

Cockerels that develop head points and begin to crow early in life are apt to be the best breeders. Breed the best ones before selling too many broilers.

## TWELVE TO ONE

A simple rule.

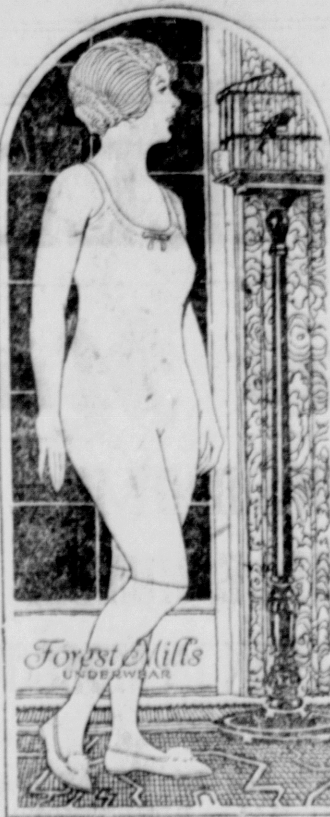

Easy to remember and easy to practice, yet over half the trouble in burning coal is caused by violation of this rule. The rule is—it requires 12 pounds of air properly mixed with every pound of coal for complete combustion.

Only about 8 pounds of air can come up through the fire; consequently, about 4 pounds of air, which is a lot of air, must be brought in over the fire.

Now, CONSOLIDATION ELKHORN and ZEIGLER NUT are fool-proof coals—they will burn in almost any kind of a furnace under almost any kind of conditions—because they are 95% pure combustible material, contain less than 3% ash, and their gases are rich in combustible elements. Just try this wonder fuel on our recommendation.

## TWELVE TO ONE

A simple rule.

Easy to remember and easy to practice, yet over half the trouble in burning coal is caused by violation of this rule. The rule is—it requires 12 pounds of air properly mixed with every pound of coal for complete combustion.

Only about 8 pounds of air can come up through the fire; consequently, about 4 pounds of air, which is a lot of air, must be brought in over the fire.

Now, CONSOLIDATION ELKHORN and ZEIGLER NUT are fool-proof coals—they will burn in almost any kind of a furnace under almost any kind of conditions—because they are 95% pure combustible material, contain less than 3% ash, and their gases are rich in combustible elements. Just try this wonder fuel on our recommendation.

## 12 CHAIRMEN OF COMMITTEES

Standing Committee Heads Made  
Public at Civic & Commerce  
Association Meeting

PRES. GRUENHAGEN PRESIDES

Committees Grouped Under Vice  
Presidents Murphy, Spencer  
and Peterson

The chairmen of the twelve standing committees of the Brainerd Civic and Commerce Association were announced at the regular meeting of that body on Wednesday evening. They are as follows:

Under First Vice President—Walter M. Murphy.  
Publicity and Convention—John A. Hoffbauer.

Educational—R. R. Gould.  
Municipal—Dr. W. A. Erickson.  
City Planning—R. T. Campbell.

Under Second Vice President—W. A. Spencer.  
Agricultural Development—R. R. Wise.

Industrial Promotion—Carl J. Wright.  
Trade Promotion—W. H. Cleary.  
Traffic Committee—George D. LaBar.

Under Third Vice President—O. A. Peterson.  
Finance and Auditing—A. L. Hoffman.

Meetings and Entertainment—E. J. Quinn.  
Ways and Means—W. J. Hall.  
Membership—George E. Lowe.

J. P. Anderson, chairman of the special committee in regard to an athletic park for the city, reported on the work of his committee, and was asked to get estimates of the probable cost of developing such a park.

Henry I. Cohen, chairman of the special committee on the proposed Gull lake fish hatchery, reported very favorable progress in this matter, and stated that it will probably be necessary to purchase several acres of land as a site for the hatchery, as this has been the custom in other localities. No action was taken in the matter.

Carl Wright, chairman of the industrial promotion committee made his annual report for the activities of the year 1923, and Dr. R. A. Beise, treasurer of that committee, read its financial report. This committee has had as its principal work, the promotion of the Brainerd tourist's camp site, which it handled most successfully and with great credit to itself, during the past season. A rising vote of thanks was extended to the committee for the splendid manner in which it has carried on its work.

E. L. Dahl, president of the North-east Brainerd Improvement League, appeared before the meeting and explained the bill which is before the United States congress for an appropriation of one and a half million dollars with which to establish a veterans tuberculosis hospital in district No. 10, in which Brainerd is located. Mr. Dahl asked the support of the association in making an effort to have the hospital located in Brainerd should the appropriation be allowed. The matter was referred to the industrial promotion committee, with the request that it work in conjunction with similar committees from other organizations.

A communication was read from Hon. Harold Knutson, congressman from this district, in answer to a telegram from the association advising of its indorsement of the Norbeck-Burness bill aiding farmers of the Northwest. Mr. Knutson stated in his letter that he is cooperating in every possible way with those who are in Washington from the Northwest, in behalf of this measure, among whom is his brother, Elmer Knutson who appeared before the secretary of agriculture in person. The congressman hopes for an early and favorable action on the matter.

The president, F. H. Gruenhagen, reported that the board of directors have appointed a committee to work out plans for supplying farmers of the county with full blooded dairy sires, and hopes that the work of this important committee will find hearty cooperation among all members of the association.

President Gruenhagen also asked that all members co-operate in beautifying the city. He stated that this work has been given to a special committee, of which Ben Armstrong is chairman, he to select his assistants.

A representative of the Heinz pickle Co., gave a short talk on the proposition of securing acreage among local farmers for the growing of cucumbers for pickling, and the establishment of a pickle salting

A committee is to be appointed to assist the city and county officials in an effort to reduce taxation. This is one of the important matters that is a part of the program for 1923 and which is of vital interest to every citizen.

### TESTED RECIPES

Furnished by Wheat Council  
of the United States

#### Frosting and Filling

¾ cup water 1½ cups chopped  
2 cups sugar flgs  
3 egg whites 1 cup chopped pe-  
1½ cups chopped cans  
raisins (seeded) ½ tsp. almond ex-  
tract

Boil the sugar and water until it will make a fine thread when dropped from a spoon (225 deg. F.). Pour slowly into the egg whites which have been beaten until they are stiff, and beat this continually until the mixture is thick enough to spread. Add the fruit and nuts and spread between the layers and on the top and sides.

### RESOLUTION

WHEREAS, it appears practicable and expedient to this body that the matter of maintenance of all street lights in the City of Brainerd be under the direct supervision of the Water and Light Board, and

WHEREAS, any needed repair or other work for the maintenance of said street lights has been and now is being done by the employees of the Water and Light Board, and

WHEREAS, over a period of many years the cost of maintaining the street lighting and maintenance of water hydrants has required all funds that could be produced from a tax of three mills levied in the City,

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Brainerd, that the maintenance, management and control of all street lighting property and fixtures of the City, including the ornamental lamp posts, except and reserving only those used in the public parks in said City, be, and hereby is vested in the Water and Light Board in said City, subject to the provisions of Sub-division 14, Section 54, of the City Charter, and the rates for the electric current maintenance and extension of said lighting properties and water rentals, as defined in Sub-division 14, of Section 54, of the City Charter, is hereby fixed and established at the amount producible from a tax levy of three mills on a dollar to be turned over to the Water and Light Board at such times as the same is paid into the City Treasury.

This resolution shall be in force and take effect from and after January 1st, 1924.

Nothing to Swallow—  
You Just Melt a Little  
in a Spoon and Breathe  
in the Healing Vapors.

To stop a head cold, try this simple, direct method. Melt a little Vicks in a spoon and inhale the penetrating vapors of Camphor, Menthol, Eucalyptus, Juniper Tar, etc. Also put a little up each nostril and snuff well back.

Another method is to heat a tin cup, put in a teaspoonful of Vicks and inhale the vapors that way. As fast as the vapors lose their strength, throw out the melted Vicks and add fresh.

Mothers prefer Vicks for their children because it avoids so much internal dosing. It can be used with perfect safety on the youngest child.

## Putting Zest Into Business!

Treating others all the time as you would have them treat you all the time is not difficult.

As a matter of fact, it adds zest to the duties of storekeeping and makes business a pleasure.

If we were to hold a "sale" we would feel that our patrons had a just cause to complain: It would be equivalent to admitting that we had not quoted the lowest-possible prices at the outset.

Bottom-notch prices here always!

## EXCELLENT REPORT OF WATER AND LIGHT BOARD

THE report of the Water and Light Department as of December 1, 1923, shows the following items of interest:

Total Assets	\$543,722.98
Capital Assets (less depreciation)	516,958.82
Valuation of Water Plant	417,747.38
City's unreserved interest	188,662.82
Valuation of Electric Plant	84,004.31
Valuation of Real Estate	15,207.13
Total gross earnings November	11,050.54
Operating Expenses	8,635.46
Cash Collected	11,460.68
Collected over Expenses	2,825.22
Depreciation charged off	
Water	\$650.22
Electricity	505.83
Total	1,156.05
Interest paid	1,406.25
Pn. of Bonds (Nov.)	416.67
Net Profit	\$ 1,811.62
Minimum Consumers—Water	35%
Electricity	7%
Meters—Water	1897
Electricity	2565
Total	4462
Primary electric lines	17.60 miles
Secondary electric lines	23.93 miles
Drop lines	88.41 miles
Total	129.94

For the information of those interested, this department of the city is self-sustaining. It pays its bonds, and interest on the bonds, from the earnings of the sales of water, electricity, and materials. Nothing about this department's finances has anything to do with the question of taxes paid by citizens.

It should be noted that four years ago we had about 1800 meters in service; today there are 4462, which indicates a remarkable development and growth.

## THE MACDONALD FAMILY

THERE are five children in the family of Ramsay MacDonald, labor premier of Britain. It is interesting to read of their ideal home life. Of the children, Alister, an architect, is married. Malcolm is attending Oxford University. Isabel, the oldest daughter, is 20 and very pretty. She is studying household and domestic science and social service in King's college. Joan is 15 and is struggling through her algebra. Sheila, age 13, is wrestling with her first lessons in geometry.

The den of the labor leader and premier is at the top of his house. The walls are lined with shelves of books. MacDonald is a great smoker—pipes, cigars and cigars all appeal to him. Breakfast is the only meal which assembles all the family. After that MacDonald is out all day and when the house is in session he's never home until late at night, when every one else has retired.

It is a simple, unpretentious home life, all studying and working and aspiring to higher things. There are no shirkers among the MacDonalds. Each one has a high objective clearly marked.

## GASOLINE TAX

THE proposal of a gasoline tax is constantly gaining new adherents. Every state in the union may soon adopt a gasoline tax as a method of financing highway improvements, is the prediction of F. A. Cannon, secretary of the Good Roads Association of Wisconsin. Thirty-six states have already adopted this method.

The deciding factors of road usage by cars are weight, speed and mileage traveled, says Mr. Cannon, and the gasoline tax measures their elements closely. A heavier car uses more gasoline than a light car, a car traveling at high speed more than one at low speed. The gasoline tax is not a sales tax but is a tax on road use.

It is less subject to evasion as the amount involved is small. Cost of administration in no state is over 1 per cent. It will put money in the road fund from tourists of other states who are using and wearing out our roads.

## S. R. ADAIR'S FIGURES

READING of figures is something monotonous to Dispatch subscribers, but not so when it concerns local taxes. S. R. Adair, county treasurer, gave an illuminating talk at the Rotary club, showing how taxes have mounted from 1904 to 1923, due to greater demands for improvements of all kinds. Especially noticeable was this in the road and bridge fund which advanced from a levy of \$5,500 in 1904 to one of \$125,000 in 1923. The figures of 1904 would nowadays not build much over a mile of decent road.

With the building up of the county's sinking fund and the retirement of bond issues, Mr. Adair prophesied the county would be clear of indebtedness by 1930. The financial statement of the county, as a whole, is a most encouraging one.

## FEARS A NEW WAR IN EUROPE

LLOYD GEORGE fears a new war in Europe. In a recent article he is quoted as saying that "France who cannot afford to honor her obligations to Britain and the United States of America, can find plenty of money to equip European nations with destructive weapons, to intimidate—and when called upon to tear—their neighbors. She cannot afford to pay interest upon these debts, so the burdened taxpayers of Britain and America must continue to do so whilst she is utilizing her resources in militarizing Europe. What does she hope to gain by this policy?"

## State Poultry Association

Minneapolis, Jan. 24.—More than \$2,000 in premium money, 34 silver cups and 104 special merchandise prizes were offered today at the opening of the annual exhibition of the Minnesota State Poultry association. Space in the armory has been enlarged to accommodate about 2,500 entries of poultry, rabbits and pigeons. The exhibit will be the largest in the history of the association.

Several state poultry clubs will hold their annual meetings during the exposition, and the National Speckled Sussex club will hold its national convention.

Demonstrations of the proper grading and selection of eggs will be a part of the program, and demonstrations also will show the food and fur value of rabbits. Racing pigeons will be exhibited, and demonstrations of lofting and housing them will be given.

## Discuss Presidential Candidates

Valley City, N. D., Jan. 24.—Presidential candidates will be discussed at the meeting here tomorrow of the democratic state central committee. It is likely that delegates to the national convention and presidential electors will be endorsed.

The call for the meeting was issued by Henry Holt, secretary, of Grand Forks, and repudiated by W. G. Woolledge, state chairman. The meeting, in spite of the latter fact, is to take place, according to Mr. Holt.

## Arrests Made by Federal Agents

Fargo, N. D., Jan. 24.—Eight hundred and twenty-one arrests were made by federal prohibition agents in North Dakota during 1923, according to a report just issued by state headquarters here.

Spirits seized totaled 2235.25 gallons; malt liquor seized totaled 352.25 gallons; complete stills taken number 267, and mash seized totaled 13,865.50 gallons. Fermenters seized numbered 278. In addition a large amount of miscellaneous articles used in the manufacture of illicit liquor were taken.

## Fire Prevention

Aberdeen, S. D., Jan. 24.—Risk men of South Dakota met here today for their annual two day convention.

An open fire prevention meeting will be held at the auditorium tonight in connection with the convention of the South Dakota Association of Insurance Agents.

The Dakota Pond of the Order of the Blue Goose will meet, bringing a large number of insurers from North Dakota.

## Tri-State Development

Duluth, Jan. 24.—Timber, taxation and transportation will be discussed in all their commercial phases today and tomorrow at the annual meeting of the Tri-State Development congress here.

These major items affecting development of the states bordering on Lake Superior will be threshed out by leading authorities of the northwest. State officials of Wisconsin, Minnesota and Michigan, and civic leaders, commercial authorities, agricultural leaders, forestry experts and highway association representatives will be present.

The Great Lakes to the ocean deep waterway, railroad and highway transportation problems are on the program for definite action. Recommendations will be forwarded to the congress now in session.

Mayor S. F. Knively of Duluth will welcome delegates and Governor J. A. O. Preus of Minnesota was to address the convention this morning.

## "A NOBLE OUTCAST"

Home Talent Play of Knights of Columbus Show Class in Rehearsals

Rapid strides have been made in the last few days in preparation by the Knights of Columbus for the presentation of their big home talent play "A Noble Outcast" a thrilling comedy drama at the New Park theatre, Tuesday, February 5th.

A few persons who have been permitted to attend rehearsals declare that this performance will set a new standard for amateur theatricals in our city. The success of Director Frank Sears in finding characters naturally qualified for the respective parts in the play, and introducing the principals of theatrical work as practiced on the professional stage is regarded as little short of remarkable.

Even though the production is, as Director Sears asserts still in a rough state, it has furnished capital amusement for visitors at rehearsals. Every member of the cast is most enthusiastic as to the outcome, each expressing himself as delighted in his share of the work.

The committee in charge of the sale of tickets report very satisfactory sales and it is now apparent that all seats will be sold in record breaking time as the big success made by "The Middleman" presentation is still fresh in the minds of the theatregoers of this city.

## TAX REVIEW IS GIVEN OF COUNTY

County Treasurer S. R. Adair Quotes Interesting Figures at Rotary Club Meeting

## ROAD AND BRIDGE INCREASE Leaped From \$5,500 for 1904 Taxes to \$125,000 For Taxes of 1923

At the Rotary meeting, S. R. Adair, county treasurer, gave a review of the taxes in the city of Brainerd for the past 19 years, touching the main items of state county, school and city taxes.

The total rate in mills for 1904 taxes was 43.25; in 1909, 44 mills; 1914 was 44 mills; 1919 was 77.80 mills; 1923 was 100 mills.

The levies in dollars are given as follows for the various funds:

State taxes for 1904 were \$15,000; 1909 were \$16,500; 1914 were \$64,800; 1919 were \$112,000; 1923 were \$115,000.

County revenue for 1904 was \$22,000; 1909 was \$25,000; 1914 was \$45,000; 1919 was \$55,000; 1923 was \$90,000.

County road and bridge fund for 1904 was \$5,500; 1909 was \$11,750; 1914 was \$30,000; 1919 was \$70,000; 1923 was \$125,000.

City school tax for 1904 was \$47,000; for 1909 was \$48,000; for 1914 was \$46,000; for 1919 was \$73,000; for 1923 was \$142,000.

City taxes for 1904 were \$24,500; for 1909 were \$25,000; for 1914 were \$25,250; for 1919 were \$65,000; for 1923 were \$83,000.

The assessed valuation of Crow Wing county personal and real property for 1904 was \$5,589,212; for 1909 was \$5,868,775; for 1914 was \$13,648,050; for 1919 was \$13,878,126; for 1923 was \$14,508,245.

**Bonded Indebtedness**  
January 1, 1905 the county's bonded indebtedness amounted to \$239,000. That year a sinking fund was authorized by the county commissioners to take care of the same and the bonded indebtedness has been reduced to \$115,000.

**County Acquisitions**  
The county has acquired the new courthouse site of 680 feet frontage on Laurel street between 3rd and 5th streets at a cost of \$16,091.74. The county jail cost complete \$35,342.58. The court house cost complete \$243,752.53, making a total for site buildings, etc., of this centre amounting to \$395,186.85. On this the county has paid \$336,186.85, leaving a balance due of \$59,000, which is expected will be paid by 1926.

The county should be out of debt in 1930 without increasing taxes and with every prospect of a reduction in county taxes each year. Up to 1923 the highest levy for county revenue has been \$60,000. This fund has been called on to take care of many new activities by acts of the legislature, etc., and has been falling short. The present levy is large in order to take up the shortage.

For the 16 years prior to 1904 the total tax collection amounted to less than \$2,000,000. In the last six years it has been nearly \$8,000,000.

**Royal Neighbors Install**  
The following officers were installed by Camp 1730, Royal Neighbors of America:

Oracle—Claribel Swanson.  
Vice Oracle—Anna Ericson.  
Past Oracle—Ellen Cameron.  
Chancellor—Lena Weber.  
Recorder—Josie Morrison.  
Receiver—Emma Luken.  
Inner Sentinel—Rose Clark.  
Outer Sentinel—Mabel Stillwell.  
Marshal—Ethel Thomas.  
Ass't Marshal—Florence Bolin.

Courage—Elizabeth Hitt.  
Unselfishness—Olga Vanni.  
Endurance—Anga Osborne.  
Musician—Josie Nelson.  
Managers—Nellie Quinn, Elizabeth Hitt, Anna Osborne.

**First Baptist Church**  
This evening at 7:30 o'clock there will be a prayer meeting at the First Baptist Church to which all members and friends are cordially invited.

This will be under the direction of the Sunday school of the church and will be of unusual interest.

As this special effort is being put forth it is hoped that there will be a large attendance.

**Preparedness**  
He—"My dear, it's no use for you to look at those hats; I haven't more than a dollar in my pocket."  
She—"You might have known when we came out that I'd want to buy a few things."  
He—"I did."—Boston Transcript.

Jury in Case of Maude Mutch vs John W. Anderson Finds For The Defendant

## ALEX WYNESS, JURY FOREMAN Case Was Suit For \$5,000 Damages, Personal Injuries Alleged in Auto Accident

The jury in the case of Maude Mutch against John W. Anderson brought in a sealed verdict at 2:45 o'clock Thursday morning, finding Mr. Anderson not guilty and not liable for any damages. Alex Wyness was foreman of the jury.

This was a personal injury case, in which Mrs. Mutch was suing for \$5,000 damages which she alleged were the result of injuries received when she was struck by an automobile driven by Mr. Anderson on November 19th, 1921, at the intersection of Laurel and South Seventh streets.

The trial of this case was longer than was at first anticipated, lasting two full days, with an evening session Wednesday. Because of the number of cases on the calendar at this time, the court decided to hold an evening session to close the case so that another could be started on Thursday. The case was argued to the jury, each side being given one hour for this, and the jury was charged by the court and retired at 10:20 p. m.

The principal witnesses for the plaintiff were Dr. J. A. Thabes, Dr. G. I. Badeaux, Miss Witham and Perry Duff.

The defendant's witnesses were H. Turcotte, A. M. Opsahl, Mrs. P. G. Fogelstrom, Miss Heyers, Miss Mary Carlson, Mrs. Benson, Dr. B. I. Debrauf, J. E. Stewart, Mrs. Mary Anderson and T. E. Welsh.

Those called in rebuttal were Maude Mutch, George Lucas and Carl Wright.

The jury in this case included Mrs. J. H. Strickler, W. H. Tuttle, N. A. Nelson, John A. Jackson, John A. Olson, Alex Wyness, J. B. James, A. A. Clark, Mrs. A. L. Bratt, F. W. Markward, Adam Austin and Mrs. Seyntha Atwater.

M. E. and C. A. Ryan were attorneys for Mrs. Mutch, and D. H. Fullerton and Attorney Nelson of Duluth represented Mr. Anderson.

**Thursday's Case**  
The case on trial Thursday is that of the state against George Lindsay, charged with carnal knowledge.

This case was tried at the November term of the district court, on November 27th, but at that time the jury disagreed by a count of 5 to 7, necessitating a re-trial.

County Attorney Walter F. Wieland is prosecuting the state's case, and D. B. McAlpine of Ironton and Sam Anderson of St. Paul are defending Lindsay, who is an Ironton man.

It is hoped to complete the jury cases by the end of this week, after which there is quite a grist of court cases to be disposed of.

## TUBERCULOSIS CLINIC SATURDAY

A tuberculosis clinic will be held at the County Nurses office in the Court House, January 26, from 10 till 12 o'clock. Dr. H. Anderson from the Deerwood sanatorium will conduct the clinic.

**W. C. T. U.**  
The W. C. T. U. will meet with Mrs. B. A. Samuelson 521 South Broadway Friday afternoon. Members are urged to be present. Visitors always welcome.

## BIRTHDAY SURPRISE PARTY Mrs. Albin Houle Greeted by Many Friends on Tuesday Evening

Friends of Mrs. Albin Houle surprised her on Tuesday evening at her home, 415 Fifth avenue, N. E., the occasion being her birthday.

The evening was spent in playing five hundred, the ladies' honors going to Mrs. W. E. Houle and the gentlemen's honor to Albert Janest.

A delicious luncheon was served late in the evening by the hostess, followed by a short musical program. Paul Picard rendered several vocal solos, accompanied by Mr. Janest at the piano.

The guests included Mrs. Emma Daveau, Mrs. James Gravell, Miss Lena Gravell, Mr. and Mrs. Albert Janest, Mrs. E. A. Romain, Mrs. Albert Beaumont, Mr. and Mrs. Louis Gravell, Mr. and Mrs. Paul Picard, Mr. and Mrs. W. E. Houle.

Mrs. Houle was presented with a beautiful bouquet of roses in honor of her birthday.

## PATRIOTISM TO BE THE KEYNOTE

At Coming 14th Anniversary Week of the Boy Scouts of America

## DATES INCLUDE FEB. 8 TO 14 Brainerd and All Crow Wing County to Join in Fitting Services

Patriotism will be the keynote of the coming 14th anniversary week celebration which will be observed by Boy Scouts all over the country on the seven days beginning February 8th and ending on the 14th.

It has been suggested that perhaps the best way to further patriotism among scouts is to make an effort wherever possible to visit some historic shrine or spot of notable patriotic interest. Unfortunately, this will be impossible for scouts of Brainerd and Crow Wing county, but it is planned to instill patriotism in other ways, such as giving over one day during the anniversary week to patriotic service in some public building, the re-commitment to the scout oath and law, and by special good turns.

The constitution of the Boy Scouts of America prescribes that a nationwide observance of anniversary week shall take place during the month of February, to include February 8th, which is the day on which the great boy organization was originally incorporated. This year is the 14th anniversary of that great event.

Brainerd and all of Crow Wing county will join in fitting ceremonies to begin on this anniversary date and continue one week, closing on Lincoln's birthday. The programs arranged for these seven days is not alone for the boy scout officials, but is one in which the general public can participate, and everyone is invited and urged to take part in the patriotic ceremonies of the week, which briefly are as follows:

The outstanding feature of the opening day will be the marshalling of the troops, the re-commitment of the scout oath and law, and the father and son banquet.

On the second day all scouts of the county are to assemble in Brainerd at ten o'clock in the morning for a big scout parade. Visiting troops are to be entertained by the Brainerd scouts. A big "Bean feed" is scheduled for 6 p. m.

All churches will be asked to have special scout services on Sunday, the third day of the anniversary week, those churches which have troops will invite the boys to attend services in a body, and the denominations having no troop are to invite non-church troops to special service.

Monday is designated as "School day," and there are to be demonstrations of scoutcraft in all schools where scouts attend, special 10 minute talks by scouts, followed by short talks by men of the community.

Patriotic day is set for Tuesday. Flags are to be raised on all public buildings and displayed at home, by scouts with scouts in charge of flag ceremonies all day. There will be a patriotic ceremony at 4:20 to be held in some public building to be announced later. The rank of tenderfoot will be conferred on some leading citizen.

Wednesday is home and friendship day, characterized by good turns to friends, neighbors, hospitals and poor. A scout radio program is to be broadcasted from W. B. A. H. Minneapolis, 9:15 to 10:45 p. m.

February 14th, Lincoln's birthday, and the last day of the anniversary week is designated as "Round-up and take-off day." Every scout will be expected to round up a recruit for his troop and set a goal for his own advancement in 1924. W. L. A. G. of St. Paul will broadcast a special scout program from 9:30 to 11 o'clock on that evening. A campers' saying club will be started, each scout will be expected to earn his own money for the 1924 camp.

Citizens of Brainerd and Crow Wing county are asked to keep in mind this anniversary week, and to give their assistance to help make the programs successful.

**From X to O**  
A colored mammy came into the office of the estate for which she worked to receive her monthly wages. As she could not write, she always made her mark on the receipt—the usual cross. But on this occasion she made a circle.

"Why," Linda explained earnestly, "Ah done got married yesterday and changed mah name."—Dry Goods Economist.

## TRAVELINGMEN VISIT FARMERS

Evening of Song, Talks, Sincere Cooperation Exemplified at Crow Wing Farm Bureau

## U. C. T. COUNCIL 545 ENTOUR Photographer to Take Flashlight Picture of the Whole Assemblage

The United Commercial Travelers, Council 545 of Brainerd, will visit the Crow Wing Farm Bureau Unit at Barrows on Saturday evening, January 26, by special invitation and the event will be made a noteworthy one. The travelingmen have a group of short, snappy talks; songs, solos and quartets and instrumental music to be delivered under the direction of their chairman and P. B. Anderson of the Farm Bureau will officiate for the farmers.

The travelingmen will bring something entirely new in Farm Bureau visits, introducing a system which will appeal to the country at large and which will be given the widest publicity, insuring to the benefit alike of the farmers and the U. C. T. men.

The travelingmen believe is dividing the burden, for instance on refreshments, and will go 50-50 on the same. A photographer, James M. Gorham of the 10,000 Lakes Studio, formerly the Birkland Studio, will accompany the U. C. T. men and will take a flashlight picture of the assemblage.

The visit of the Council was announced at the last Wednesday meeting of the Farm Bureau and in addition, to rally the whole unit, P. B. Anderson sent out special notices.

# The Cost of a Car

*is no measure of its value*

**These are the things to consider**

**T**HE cost of a car depends in large part on volume and efficiency. It is no criterion of value.

Studebaker builds 150,000 fine cars yearly. All of them are Sixes. The main costs are divided by that enormous output. Thus at prices of \$975 and up we offer the utmost in quality. We offer maximum values.

Don't judge these cars by prices. Under other conditions they might cost twice as much, yet offer less than these.

### Some major costs

Quality cars require costly facilities. Studebaker has \$50,000,000 invested in modern plants and equipment. \$8,000,000 in drop forge plants alone. \$10,000,000 in body plants, to carry out the Studebaker standards.

There are 12,500 up-to-date machines employed to build these cars. Some are enormously expensive.

Few outputs justify such facilities. Then parts must be bought outside, and profits paid to others.

Studebaker engineering costs \$500,000 per year. That to us is \$3.33 per car.

Our Department of Research and Experiment employs 125 skilled men. It makes 500,000 tests per year to maintain our standards.

Our Bureau of Methods and Standards fixes the requirements for every part and detail. 12,000 inspections are necessary for each car to insure against flaws and mistakes. We employ 1,000 men to make them. Cars like the Studebakers cannot be built without such facilities, such research, such care. Yet enormous output alone makes them possible at Studebaker prices.

### The best we know

Studebakers represent the best we know. And with our army of en-

gineers, with our wealth of experience, we probably know what is best.

We use 35 formulas for steels. Each is best suited to certain parts, as proved by years of tests.

On some steels we pay the makers a bonus of 15% to get them exactly right. There is no room to excel us there.

We machine the entire surface of each crank shaft, as was done on Liberty Airplane Motors. That extra cost is heavy. But thus we get

ations, including 15 coats of paint and varnish.

Open cars have real leather cushions. They cost, over imitation leather, about \$25 per car.

No closed cars could be more luxurious. That lining of Chase Mohair is made from the soft fleece of Angora goats. A velvet lining would save about two-thirds that cost—up to \$100 per car.

Note how every detail denotes infinite care. That, as you know, is expensive.

Note the completeness of our larger models. The nickel-plated bumpers, extra disc wheels with cord tires, a steel trunk, a courtesy light. These are rare extras, even on the costliest cars.

### Nothing is stinted

Compare part by part with any rival cars. Studebaker will show you some scores of advantages.

Then consider Studebaker history. For 72 years this name has stood for quality. When people rode in carriages, Studebaker built the best. Now those same traditions are applied to motor cars alone.

Consider Studebaker records. Mark how these cars in service have multiplied demand, until people last year paid \$200,000,000 for Studebaker cars.

Consider their service records. One Studebaker car, built in 1918, has run 475,000 miles. It is still in active service. It lately made a mid-winter trip from Los Angeles to New York. That means 80 years of average service, of 6,000 miles per year.

What more can you dream of in a motor car than the Studebakers offer?

## Just Go and See

Studebaker is today the leader in the fine-car field.

Studebaker builds more quality cars than any other concern in the world.

Buyers of fine cars last year spent over \$200,000,000 for Studebaker models.

The demand for Studebakers has almost trebled in three years—as people found them out.

Then go see them. Compare them with any car you will. Don't spend \$1,000 or over without knowing what Studebaker offers. You owe that to yourself.

that perfect balance, that absence of vibration.

We use more Timken bearings than any other car which costs under \$5,600. They cost considerably more than ball bearings.

These facts apply to all Studebakers, of all styles and sizes. The materials used in all chassis are alike.

### Beauty—Luxury—Finish

The Studebaker coach work has been famous for decades. No one can excel it.

The finish is produced by 26 oper-

## TAX REVIEW IS GIVEN OF COUNTY

County Treasurer S. R. Adair Quotes Interesting Figures at Rotary Club Meeting

### ROAD AND BRIDGE INCREASE

Leaped From \$5,500 for 1904 Taxes to \$125,000 For Taxes of 1923

At the Rotary meeting, S. R. Adair, county treasurer, gave a review of the taxes in the city of Brainerd for the past 19 years, touching the main items of state county, school and city taxes.

The total rate in mills for 1904 taxes was 43.25; in 1909, 44 mills; 1914 was 44 mills; 1919 was 77.80 mills; 1923 was 100 mills.

The levies in dollars are given as follows for the various funds:

State taxes for 1904 were \$15,000; 1909 were \$16,500; 1914 were \$64,800; 1919 were \$112,000; 1923 were \$115,000.

County revenue for 1904 was \$22,000; 1909 was \$25,000; 1914 was \$45,000; 1919 was \$55,000; 1923 was \$90,000.

County road and bridge fund for 1904 was \$5500; 1909 was \$11,750; 1914 was \$30,000; 1919 was \$70,000; 1923 was \$125,000.

City school tax for 1904 was \$47,000; for 1909 was \$48,000; for 1914 was \$46,000; for 1919 was \$73,000; for 1923 was \$142,000.

City taxes for 1904 were \$24,500; for 1909 were \$25,000; for 1914 were \$25,250; for 1919 were \$65,000; for 1923 were \$83,000.

The assessed valuation of Crow Wing county personal and real property for 1904 was \$5,589, 212; for 1909 was \$5,868,775; for 1914 was \$13,648,050; for 1919 was \$13,878, 126; for 1923 was \$14,508,245.

#### Bonded Indebtedness

January 1, 1905 the county's bonded indebtedness amounted to \$239,000. That year a sinking fund was authorized by the county commissioners to take care of the same and the bonded indebtedness has been reduced to \$115,000.

#### County Acquisitions

The county has acquired the new courthouse site of 630 feet frontage on Laurel street between 3rd and 5th streets at a cost of \$16,091.74. The county jail cost complete \$35,342.58. The court house cost complete \$243, 752.53, making a total for site buildings, etc., of this centre amounting to \$395, 186.85. On this the county has paid \$336,186.85, leaving a balance due of \$59,000, which is expected will be paid by 1926.

The county should be out of debt in 1930 without increasing taxes and with every prospect of a reduction in county taxes each year. Up to 1923 the highest levy for county revenue has been \$60,000. This fund has been called on to take care of many new activities by acts of the legislature, etc., and has been falling short. The present levy is large in order to take up the shortage.

For the 16 years prior to 1904 the total tax collection amounted to less than \$2,000,000. In the last six years it has been nearly \$8,000,000.

#### Royal Neighbors Install

The following officers were installed by Camp 1730, Royal Neighbors of America:

gineers, with our wealth of experience, we probably know what is best.

We use 35 formulas for steels. Each is best suited to certain parts, as proved by years of tests.

On some steels we pay the makers a bonus of 15% to get them exactly right. There is no room to excel us there.

We machine the entire surface of each crank shaft, as was done on Liberty Airplane Motors. That extra cost is heavy. But thus we get

ations, including 15 coats of paint and varnish.

Open cars have real leather cushions. They cost, over imitation leather, about \$25 per car.

No closed cars could be more luxurious. That lining of Chase Mohair is made from the soft fleece of Angora goats. A velour lining would save about two-thirds that cost—up to \$100 per car.

Note how every detail denotes infinite care. That, as you know, is expensive.

Note the completeness of our larger models. The nickel-plated bumpers, extra disc wheels with cord tires, a steel trunk, a courtesy light. These are rare extras, even on the costliest cars.

#### Nothing is stinted

Compare part by part with any rival cars. Studebaker will show you some scores of advantages.

Then consider Studebaker history. For 72 years this name has stood for quality. When people rode in carriages, Studebaker built the best. Now those same traditions are applied to motor cars alone.

Consider Studebaker records. Mark how these cars in service have multiplied demand, until people last year paid \$200,000,000 for Studebaker cars.

#### \* \* \*

Consider their service records. One Studebaker car, built in 1918, has run 475,000 miles. It is still in active service. It lately made a mid-winter trip from Los Angeles to New York. That means 80 years of average service, of 6,000 miles per year.

What more can you dream of in a motor car than the Studebakers offer?

## Just Go and See

Studebaker is today the leader in the fine-car field.

Studebaker builds more quality cars than any other concern in the world.

Buyers of fine cars last year spent over \$200,000,000 for Studebaker models.

The demand for Studebakers has almost trebled in three years—as people found them out.

Then go see them. Compare them with any car you will. Don't spend \$1,000 or over without knowing what Studebaker offers. You owe that to yourself.

that perfect balance, that absence of vibration.

We use more Timken bearings than any other car which costs under \$5,600. They cost considerably more than ball bearings.

These facts apply to all Studebakers, of all styles and sizes. The materials used in all chassis are alike.

#### Beauty—Luxury—Finish

The Studebaker coach work has been famous for decades. No one can excel it.

The finish is produced by 26 oper-

SHOOING OLD BOYS FROM GOLF CLASSICS

By HENRY L. FARRELL  
United Press Sports Editor

New York, Jan. 24.—Snacks that Age takes against Youth are always featured more than the socks that Youth lands on Age.

Perhaps that is the reason why a subtle but potent punch taken at Age in a speech made recently by Wynant D. Vanderpool, president of the United States Golf Association, slipped by almost unnoticed.

In addressing the annual meeting of the association here early in the month, Vanderpool said in part:

"In spite of the efforts of the eligibility committee, the number of players entering the amateur championship is still large. It is very desirable that this event should be played in one week and that the tournament should start on Monday morning. This can be accomplished only by reducing the list of those eligible to compete. It seems fortunate that players having no possible chance of going through should continue to enter. I do not wish to discourage the younger players whose game is constantly improving. My thought is that there are a number of older players, who, even though they qualify, cannot possibly go through the tournament. These, I think, we should try to dissuade from entering because it hardly seems fair to those who really have a chance to be called upon for an extra day's play."

Might that be a move against those who maintain golf is an old man's game?

RICKARD STATEMENT ON CHAMPIONSHIP FIGHTS REPORTED

New York, Jan. 24.—Championship fights in the most interesting classes of pugilism are confined to New York by natural conditions that cannot be controlled, Tex Rickard, New York's leading promoter, said today.

Rickard was giving answer to the charges of the National Boxing association that he and his partner, John Ringling, had effected a combine which constituted a national monopoly of boxing.

Only Place Large Enough

New York is getting all the major boxing from the contests, he said "because New York is the only city where boxing is a legally recognized sport, that is big enough to support a championship bout."

"It must be remembered that in Chicago and many of the larger cities boxing is barred," Rickard said.

"Philadelphia is a good boxing town, but it is impossible to promote big championships there because the prices are too low to pay boxers what they demand."

Boxing a Big Business

"Boxing is a big business. A promoter must pay the boxers what they demand. New York has a boxing law, a big population and a tremendous interest in the sport. Under those conditions New York should be allowed that for which it is willing to pay and big enough to support."

Rickard laughed at the charge that he sent agents to Shelby last summer to ruin the Dempsey-Gibbons heavyweight championship bout.

Rickard said he not only did not desire to spoil the Shelby fights, but that he was prepared and was willing to go to the rescue of the promoters if they had called upon him.

May Never Settle Differences

It is probable that the differences between the New York Boxing commission and the National Boxing association never will be settled. The members of the New York commission are said to feel that they have their hands full trying to keep the game going in New York without attempting to keep it up all over the country.

DOUBLE HEADER FRIDAY EVENING

(By L. P.)

Big double header Friday evening at 7:30. Everybody's going, follow the crowd Friday night.

All advance dope points to certain defeat for the Aitkin clan, when they clash with the Blue and White Friday evening Jan. 25. Crosby was defeated by Brainerd and Crosby defeated Aitkin 23 to 6 so Brainerd has the edge on points.

Aitkin is coming here with something of a reputation after what they displayed last year. Aitkin has a great fighting team and is noted for its clean sportsmanship in her games played with Brainerd. Aitkin is fighting hard and is going to give Brainerd a run for her victory. With the game the blue and white played against Crosby she is on her march.

The Aitkin seconds will clash also with the Brainerd seconds. This will be the first time that the local second team have performed on the home floor this year. A great game is expected. And many new faces will appear on the line-up.

THERE'S ONLY ONE WILLIE HOPPE

Billiard players can come and go but there will be only one Willie Hoppe. Hoppe, like all champions, has his off nights and has been defeated, but his nerve under any circumstances is wonderful. Hoppe is now playing under a double strain. He is not the billiard player of years gone by and domestic and financial troubles are also hampering his game. In spite of it all, the champion, 369 points behind the challenger at the end of the first night's play, overhauled his rival and is now leading 1,000 to 739. Hoppe is a real champion.

Charities Association Secretary Passed Away

Duluth, Jan. 24.—C. G. Durgin, 34, secretary of the Associated Charities, died at a hospital here late yesterday after an operation. He was well known throughout the state as a charity worker.

"Madam," he says, "my call is official. I am compiling statistics on the inhabitants in this part of our city. Might I ask what your name is?"

"Duffy—Honoria Duffy."

"And your husband's name?"

"Naturally it's the same as my own—Duffy."

"I mean his full name."

"Well, when he's full he thinks it's Jack Dempsey, but when I lay me hands on him it's still Duffy."—The McNaught Syndicate.

SULPHUR CLEARS A PIMPLY SKIN

Any breaking out of the skin on face, neck, arms or body is overcome quickest by applying Mensto-Sulphur. The pimples seem to dry right up and go away, declares a noted skin specialist.

Nothing has ever been found to take the place of sulphur as a pimple remover. It is harmless and inexpensive. Just ask any druggist for a small jar of Rowles' Mensto-Sulphur and use it like cold cream.—Adt

## STAPLES HIGH 17 LITTLE FALLS 16

Staples, Minn., Jan. 24.—The Staples High school basketball team upset the Little Falls High school quintet here in a hot contest of the third district conference race, Staples winning by a one-point margin, 17 to 16. It was just that kind of battle from the very start and at the half Little Falls was in the lead 7 to 6.

The two teams were evenly matched on the floor and the game produced some pretty play on both sides.

Brown, Little Falls forward, was the star of the game, leading the scorers with 5 field baskets. Little Falls scored 7 field baskets and scored 2 free throws.

The victory gives Staples 5 wins and one defeat in the district standings and marks the first defeat of the season for Little Falls eagles.

## SULPHUR CLEARS A PIMPLY SKIN

Any breaking out of the skin on face, neck, arms or body is overcome quickest by applying Menthosulphur. The pimples seem to dry right up and go away, declares a noted skin specialist.

Nothing has ever been found to take the place of sulphur as a pimple remover. It is harmless and inexpensive. Just ask any druggist for a small jar of Rowles' Menthosulphur and use it like cold cream.—Adt

## GRANDMA NEVER LET HER HAIR GET GRAY

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger.—Advt.
